

RICHMOND GLENN M. VILORIA

Taguig City, Philippines | rgviloria1@gmail.com
[Website Portfolio](#) | [LinkedIn](#) | [Github](#)

I am a Computer Science student specializing in Application Development with hands-on experience building web, mobile, and game applications. I am proficient in full-stack development with a focus on backend architecture and passionate about scalable solutions and continuous learning.

PROJECTS & EXPERIENCES

Moldify	2025 - Present
<i>Lead Developer</i>	<i>Thesis</i>

- Implemented and integrated REST API endpoints for both website and mobile platforms.
- Integrated and connected two cloud providers of AWS and Firebase required for the backend services.
- Developed a multimodal CNN-ANN algorithm to identify 5 mold genera with 89% preliminary accuracy on a 571-image and metadata datasets.

Deck Website & API	2025
<i>Lead Developer</i>	<i>University Project</i>

- Implemented and integrated REST API endpoints to the website frontend to backend using CodeIgniter
- Extended platform with admin dashboard, enabling moderation capabilities and user management

Through the Woods	2024
<i>Lead Developer</i>	<i>University Project</i>

- Implemented 5 core game systems: audio management, main menu navigation, save/load functionality, and cutscene/dialogue system using Unity
- Developed level progression system and item collection mechanics with proper state management

Deck Mobile	2023
<i>Full-stack Developer</i>	<i>University Project</i>

- Implemented and integrated REST API endpoints connecting Mobile frontend to backend using Flutter
- Improved student study performance by 30% based on testing

Utilitool	2023
<i>Full-stack Developer</i>	<i>Solo Freelance Project</i>

- Designed and implemented REST API endpoints using Next.js, Express, and Firebase.
- Integrated automated calculation engine, reducing manual process time by 70%

SKILLS

Technical Skills: C#, JavaScript, TypeScript, HTML, CSS, PHP, Express, React, Next.js, CodeIgniter, Flutter, Unity, Docker, Git, GitHub, Firebase, AWS, PyTorch, WSL

Soft Skills: Team Leadership, Problem-Solving, Communication, Adaptability

EDUCATIONAL BACKGROUND

University of Makati	2022 – Present
<i>Bachelors of Science in Computer Science Major in Application Development</i>	

RECOGNITION AND AWARDS

UMAK InfoTechnOlympics	2024
<i>Application Development Category 5th Place</i>	

UMAK 12th I.T. Skills Olympics

2023

C# Programming Category 7th Place

UMAK InfoTechnOlympics

2023

C# Programming Category Champion
